

PRESS RELEASE

BRICKWORLD INDY LEGO EXPOSITION AT THE STATE FAIRGROUNDS

For Immediate Release

(Fishers, IN Feb 2, 2016) Brickworld is excited to once again be bringing a premiere LEGO® display and exposition to the State Fairgrounds in Indianapolis, IN. The event will fill the 45,000 square feet of the Ag/Hort Building with displays, interactive activities and vendors. When asked how he would describe Brickworld events to someone that hasn't attended, Event Organizer, Bryan Bonahoom, said "The displays at the event are awe inspiring. The detailed ideas and creativity of the artists and engineers always amaze." Brickworld displays include trains, robots, cityscapes, space stations, and much more. Bryan also added "We are excited to be able to display the 26 foot long, 500,000 piece USS Missouri model recently completed by Dan Siskind. It is an amazing creation that is not only a piece of art, but it also captures a piece of history."

The creations you will see at the event range from medieval castles to futuristic space stations. They include movie scenes, replicas of real world buildings, and recreations of famous paintings. Plus, no Brickworld event would be complete without an incarnation of the Great Ball Contraption Rube Goldberg machine and trains.

The LEGO brick is widely recognized as one of the most educational toys in the world. At Brickworld, kids of all ages can witness an incredible variety of ways to use the brick for art and engineering applications. Using the LEGO brick exercises creativity, engineering skills and hand-eye coordination.

Brickworld Indy will be held on March 12 and 13, 2016 at the State Fairgrounds in Indianapolis, Indiana. Hours are 10 AM – 6 PM on Saturday and 10 AM – 5 PM on Sunday. General admission tickets are \$11 and kids under 3 are free. We are also pleased to honor our active duty and reserve service members and first responders with a discounted \$8 ticket (military / first responder identification required). Tickets are available at the door and online at the Brickworld web site – <http://brickworld.com/indianapolis>.

(Some sample pictures from previous events are below and attached)

Brickworld LLC is a private company that is not associated with the LEGO Group of companies. Brickworld operates expositions and conventions dedicated to LEGO enthusiasts with creations from brick artists & engineers.

Model of the battleship USS Missouri. This model is 26 ft long and made of 1 million LEGO pieces. It was created by Dan Siskind from Minneapolis, MN. (photos by Dan Siskind)

Graffiti wall for kids to build. (photo by Bryan Bonahoom)

Kids building with the 20,000 LEGO bricks in a free build area. It is amazing what they create from their imaginations. (photo by Bryan Bonahoom)

Duplo play area for younger kids (and parents too). (photo by Bryan Bonahoom)

Crawler Country, created by Steve Hassenplug (West Lafayette, IN), John Brost (Remington, IN), and Davin Huston (Lafayette, IN) – This display provides the kids an opportunity to use remote controls and drive 4-wheelers made of LEGO parts through an off-road course all made of LEGO bricks, complete with abandoned cars to drive over.
